## PROFILE SUMMARY

---

I write software that doesn't just run. It solves real problems. Whether it's simplifying complex backend logic or fixing slow interfaces, I enjoy cutting through noise and building apps that perform, scale, and make sense. Experienced with React, Node, and modern dev workflows.

## SKILLS

---

**Programming Languages:** JavaScript, TypeScript, Kotlin, Python

**Frontend Technologies:** React.js, Redux, React Native, HTML5, CSS3

**Backend Technologies:** Node.js, Express.js, Swagger API

**DevOps & Cloud:** Docker, Nginx, Git, GitLab, GitHub

**Databases:** MongoDB, Cloud Firestore

**Additional Technologies:** WebSocket, Prisma, iRedMail

**Soft Skills:** Communication, Critical Thinking, Teamwork, Problem-Solving, Adaptability, Time Management

## • PROFESSIONAL EXPERIENCE

---

### • Trinibuy LTD – Software Developer

*Dec 2023 – Present*

- Built and maintained full-stack web applications with React and Node, improving responsiveness and frontend efficiency
- Secured client portals by configuring Nginx and Certbot, ensuring encrypted access across all environments
- Created custom WordPress tools to speed up repetitive workflows and reduce developer overhead
- Replaced third-party email providers by deploying iRedMail, enabling better internal communication and shared resource access without recurring vendor costs

### • Inrits – FullStack Developer

*Jan 2023 – May 2024*

- Led development of the GPI platform showcased at the Dubai World Police Summit, focusing on backend optimization and clear, intuitive UI
  - Automated deployment pipelines using Docker and AWS, reducing manual effort and streamlining updates
  - Restructured database schemas and queries to make the platform more responsive and maintainable
- 

### • Safari – Web Developer

*Oct 2022 – Jan 2023*

- Delivered responsive designs in React to improve customer flow across key pages
- Integrated Google Maps to improve navigation for location-based services
- Configured hosting and DNS to reduce downtime and boost SEO reliability
- Introduced Google Workspace, allowing team members to prep asynchronously and reduce meeting load

## PROJECT EXPERIENCE

---

**GPI - Global Police Indicators:** Dashboard and data tools for global policing metrics, developed for Dubai Police

**React Smooth Scroll Package:** Lightweight NPM module enabling smooth anchor scroll in React apps

**Packease.shop:** Small e-commerce site for selling travel gear, built with performance in mind

**Bazaar Insights:** SaaS tool to help Hypixel Skyblock players identify profitable market flips
