Saint-Étienne, France • hassenbenhadjhassen@gmail.com • 07 51 06 04 00

PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 3+ years of experience building and scaling production SaaS platforms serving 500+ daily active users. Specialized in React/Node.js ecosystems with proven cost optimization (€180+/user) and reliability improvements (90% → 99% uptime). Based in Saint-Étienne with expertise in modern DevOps practices and self-hosted solutions.

KEY ACHIEVEMENTS

- Reduced infrastructure costs by **€180+ per user per year** by migrating enterprise email systems to a self-hosted iRedMail solution
- Improved platform reliability from **~90% to 99% uptime**, preventing revenue loss during peak traffic
- **Increased click-through and engagement metrics by up to 500%** through performance optimization, SEO, and UX improvements

PROFESSIONAL EXPERIENCE

Trinibuy LTD – Full-Stack Software Engineer

Dec 2023 – Present

- Architected secure, data-driven SaaS features, including dashboards with optimized rendering, role-based access control, and user isolation for **500+ daily active users**
- Designed and optimized REST APIs with AI-assisted features (automated logging, data analysis), reducing response times and manual support overhead by **30%**
- Improved mobile responsiveness and frontend performance, **increasing mobile engagement by 40%**
- Implemented **self-hosted iRedMail infrastructure, saving €180+ per user annually**
- Architected and maintained cloud infrastructure (Docker, AWS, Nginx) with CI/CD automation, monitoring systems, and SSL compliance across **10+ client portals**, reducing deployment effort by **30%**
- Designed and maintained PostgreSQL databases using Prisma ORM, improving data consistency and developer productivity.

Inrits – Full-Stack Developer

Jan 2023 – May 2024

- Led development of the [Global Police Indicators \(GPI\)](#) platform, **showcased at the Dubai World Police Summit**
- **Built and maintained scalable backend infrastructure supporting analytics dashboards that visualized large-scale public-sector datasets, enabling non-technical stakeholders to extract insights**
- Optimized frontend performance and responsiveness, improving usability for decision-makers
- Automated deployments using **Docker and AWS, reducing deployment effort by 30+%**
- Refactored database schemas and queries, **improving response times and system maintainability**

Safari – Web Developer

Oct 2022 – Jan 2023

- Delivered responsive React interfaces, improving user flow across key pages
- Integrated **Google Maps APIs** for location-based services
- Reconfigured hosting and DNS infrastructure, achieving **99% uptime**
- Improved **SEO performance and user trust** through SSL and infrastructure upgrades

SKILLS

Core Technologies: React • Node.js • TypeScript • Docker • AWS • Prisma • PostgreSQL

Frontend: React, TypeScript, JavaScript, HTML, CSS, Tailwind, Redux

Backend: Node.js, Express, Laravel, PHP, GraphQL, Socket.io

DevOps: Docker, AWS, Nginx, CI/CD, Linux

Authentication: OAuth, JWT

Database: MongoDB, Postgres, Prisma, Redis

Tools: Git, WordPress, iRedMail, Certbot

Methodologies: Agile/Scrum, Test-Driven Development, RESTful Architecture

PROJECT EXPERIENCE

Portfolio - <https://hassenbenhadjhassen.com>

ReactJS • NodeJS

Personal portfolio showcasing full-stack projects, technical articles, and professional experience. Built with React and Node.js with responsive design, SEO optimization, and performance-focused architecture.

CardioPro - <https://cardiopro.fr>

Laravel • Symfony • PHP

Developed and maintained a Laravel-based e-commerce platform serving the French cardiac safety sector. Implemented technical SEO improvements resulting in first-page rankings and 40% growth in organic traffic.

Global - <https://gpsi-staging.inrits.tech>

ReactJS • Leaflet

A high-performance data visualization platform built for the 2024 Police World Summit in Dubai. Commissioned by Dubai Police to display global indicators through advanced geospatial mapping. Developed with ReactJS, TypeScript, and Leaflet, and styled using Styled Components for a polished, interactive experience.

Languages

Arabic - Native

English - Professional

French - Conversational

Training & Certifications

The Complete Full-Stack Web Development Bootcamp by Angela Yu – Udemy

React, Node.js, REST APIs, WordPress
